

SEPT 4-6

LOEWS CHICAGO O'HARE HOTEL
ROSEMONT, ILLINOIS

CALL FOR STUDENT POSTERS & SCHOLARSHIP APPLICATIONS

STRONGER TOGETHER: ITS FOR ALL

Join us on September 4-6, 2024 for “Stronger Together – ITS for All”, the inspiring and momentous 2024 ITS Midwest Conference & Expo (ITSMW24)! ITS Midwest continues to support and promote all of the great ITS initiatives underway within the four state Midwest region. The annual Conference & Expo provides an opportunity for all participants to share and learn about the successful implementations that have occurred within the region and most importantly to share lessons learned from those projects. The numerous grant opportunities provided by the Bi-Partisan Infrastructure Law (BIL) have increased the opportunities for us to utilize ITS technologies in dynamic ways to revitalize our transportation network. This collaborative event will encourage attendees to move forward together by building on the lessons learned by our peers.

ITSMW24 will consist of roundtable panel discussions, technical and training sessions, a vendor showcase, a social event and an Exhibitor Open House. The objective is to create effective regional collaboration, education, and networking related to ITS within the 4-state region.

ITS Midwest invites students to submit abstracts for the student poster session and to apply for the ITS Midwest Gordon Paesani Scholarship. For more information, see page 2 and 3 of this flyer.

Hope you can join us!

Sincerely,
Jessie, Preston, and Kevin

Call for Student Posters

Dear students,

ITS Midwest invites you to submit your great work and innovations for consideration and possible presentation at the 2024 ITS Midwest Conference & Expo (ITSMW24). We anticipate a lively discussion amongst attendees and encourage your participation to contribute to the future developments in intelligent transportation systems and technology. Please also forward this call for poster abstracts to any students you think might be interested.

In creating your poster abstract, please consider how your ITS activities are solving new problems and consider any lessons learned, that may be valuable to ITSMW24 participants. We are especially interested in the following areas:

- Work Zones
- Vulnerable Road Users (VRU)/Intersection Safety
- Multimodal
- Transportation Systems Management Operations (TSMO)
- V2X/Connected Transportation
- Emerging Technologies
- Automated Vehicles
- Digital Infrastructure
- EV Charging
- Engineering Ethics
- Wrong Way Driving Solutions

Guidelines

Students are invited to submit an abstract of no longer than 250 words. Students are encouraged to be descriptive of what they plan to share and how it aligns with the above topic areas.

Poster Size: Universal size easels will be provided at the conference center.

For faster consideration, please use this on-line form to submit your poster abstract:

forms.gle/qj4dLTCf1rTKckL76

Key Dates

Submission deadline: **Friday, May 24, 2024** EXTENDED! You can still submit your poster!

Notification of acceptance: On or shortly after May 31st, the Program Committee will notify all authors who successfully submitted their abstract.

Scholarship Applications

The Gordon Paesani ITS Midwest Scholarship honors the memory of Gordon Paesani, ITS pioneer and mentor. ITS Midwest is offering one (1) **\$1,500 scholarship** opportunity to current collegiate sophomore, junior, senior, or graduate students planning to enter the transportation field with a primary focus of interest in Intelligent Transportation Systems (ITS). Applicants shall be presently attending a college or university in the four-state coverage area of ITS Midwest (Illinois, Indiana, Kentucky, Ohio).

The ITS Midwest Awards Committee will review all submitted applications and select a winner. The scholarship recipient will be notified and invited to participate in the 2024 ITS Midwest Conference & Expo and thus get access to an outstanding networking and learning opportunity.

For more information and to apply, visit itsmidwest.com/Scholarships
